## I. PATIENT ADVISORY TO CONSULT A PHYSICIAN

Fanny Sacks Lac is committed to your health and well-being. I believe that while Oriental Medicine has a great deal to offer as a health care system, it cannot totally replace the resources available through biomedical physicians. Consequently, I recommend that you consult a physician regarding any condition or conditions for which you are seeking acupuncture treatment.

To comply with Article 160, Section 821 1.1 (b) of NYS Education law, we request that you read and sign the following statement:

**WE, THE UNDERSIGNED, DO AFFIRM THAT** \_\_\_\_\_ **(patient)**

**HAS BEEN ADVISED BY:** Fanny Sacks LAc

**TO CONSULT A PHYSICIAN REGARDING THE CONDITION (S) FOR WHICH SUCH PATIENT SEEKS ACUPUNCTURE TREATMENT.**

## II. INFORMED CONSENT TO ACUPUNCTURE TREATMENT

I consent to acupuncture treatments and other procedures associated with the practice of traditional Oriental Medicine provided by Fanny Sacks Lac. I have discussed the nature and purpose of my treatment with the Fanny Sacks Lac.

I understand that methods of treatment may include but are not limited to acupuncture, moxibustion, cupping, electrical stimulation, and bodywork therapies such as Medical Massage, Tui Na (Chinese Massage) and Shiatsu.

I have been informed that acupuncture is a safe method of treatment, but that it may have side effects, including bruising, numbness or tingling near the needling sites that may last a few days, and dizziness or fainting. Bruising is a common side effect of cupping. Rare and unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although this site uses sterile, disposable needles and maintains a clean and safe environment. Burns and/or scarring are a potential risk of moxibustion. I understand that while this document describes the major risks of treatment, other side effects and risks may occur.

The herbs and nutritional supplements (from plant, animal and mineral sources), which may be recommended are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate during pregnancy. Some possible side effects of taking herbs are nausea, gas, stomachache, vomiting, diarrhea, rashes, hives and tingling of the tongue.

I will notify Fanny Sacks, who is caring for me if I am, or become pregnant.

I do not expect the practitioner to be able to anticipate and explain all possible risks and complications of treatment.

I understand the clinical and administrative staff may review my medical records and lab reports and that, portions of my records may be used for teaching or research purposes, however my name and identifying information will not be disclosed. Otherwise all of my records will be kept confidential and will not be released to any party without my written consent.

**By voluntarily signing below I show that I have read, or have had read to me, this consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.**

Print Name of Patient Representative (if applicable)

To be completed by patient (or patient's representative if the patient is a minor or is physically or legally incapacitated).

To be completed by the member of the Clinical Staff providing information and obtaining consent.
